# Genie

# MASSAGER

## **INFORMATION AND INSTRUCTIONS**

With the Mattress Genie Massager, you can select a full-body or targeted massage with just a touch to your bedside wand control. Follow these simple steps to get your massage unit up and running.

### **STEP 1**

Remove your top mattress, inflate your Mattress Genie fully and position it at the head of your box spring mattress. You can run the massager when the Genie is in any position (even flat) but you should install the massager on the fully inflated Genie.

### **STEP 2**

Unpack the massager components and plug the power cord into the hand control unit.

### **STEP 3**

Unroll the massager strip, placing the area marked HEAD face up and on the Genie. Stretch the massager down towards the foot of the bed in a straight line.

### **STEP 4**

Plug the power cord into a wall outlet, and your massager is ready to go! The wand allows you to control the massaging action and intensity.
