- Unique, zippered design provides numerous positions for full-body comfort
- Ultimate comfort for back, hips, legs and feet
- Medical grade, high-quality support foam
- Removable, washable cover

### Converts To Any Position For Ultimate Back Support and Comfort

#### Featuring the Zero-Gravity position

Places your body in a 120° angled "zero-stress zone", the most relaxed position for your heart, body and nervous system

120°

Relieves lower back stress and tension, allowing muscles and ligaments in your lumbar region to relax. Middle and upper back, shoulders and head are anatomically supported

Elevates legs to the approximate level of the heart to ease circulation

"Zero-Gravity" Position

Raised knees reduce stress on lower back

Reclining position with bent knee

Elevated knee support position

Arched position

Elevated knee and calf support position

Upright seated position
